Queen Quality
THE FAMOUS
SHOE FOR WOMEN

You
Want
Both!

When you try on a pair of shoes look for two things—comfort and style. You must have them both! Either one by itself is not enough. It is easy to make a comfortable shoe; it is easy to make a stylish shoe. But it is very difficult to combine the two. To make a stylish shoe that is comfortable is the highest art. The one shoe that fits where all others fail is "Queen Quality."

"Queen Quality" Originates Its Own Styles

Then they are copied by other makers. If you want to be ahead on the fashion wear "Queen Quality."

QUITS UNDER CRITICISM

DR. GEO. T. MOORE.

He is the official in charge of the laboratory of plant physiology of the department of agriculture, who resigned following charges that he was interested in a Pennsylvania company that was selling "nitroculture" in opposition to the government's distribution of the new soil inoculation preparation. At an inquiry it was testified that he had stock in the concern that had answered numbers of applications for "nitroculture" by referring them to the company. Dr. Moore made a statement that his superiors were cognizant of his relations with the company. He says he got a raise of salary from the department to remain with it and finish his investigation before leaving it to go with the company.

AT THE HIGHEST POINT

This is Peter O'Connor, of Waterford, Ireland, making a long jump of 23 feet 9 1/2 inches, which beat his own championship record.

MINING INDUSTRY IS BOOMING

Prof. F. A. Jones Returns From Trip Over New Mexico and Arizona.

TO MAKE SEARCH FOR PLATINUM

Prof. F. A. Jones, the well known mining expert of this city, returned this morning from a two weeks' trip to the mining camps in southern New Mexico and Arizona. He was accompanied to Albuquerque by his son, Elston E. Jones, who has been at Lordsburg all summer, doing assay work for the North American Mining company.

In conversation with an Evening Citizen reporter, Prof. Jones gave the following facts concerning conditions of the mining industry in southern New Mexico and Arizona:

"There is more activity in mining this year in New Mexico and Arizona than for a number of years past. A vast amount of development work is being done, and new claims are being opened up daily. Mining camps that have been practically dead for a number of years have taken on new life as a result of the activity, and every place I visited one could see that there was much work going on and plenty of money being made."

"Another reason for this unusual activity can also be attributed to the prosperous year among the cattle and sheep men. The range is in fine condition and is covered with an abundance of grass. All of the stock are looking sleek and fat and the present year, with a moderate winter, will see a complete recovery from the heavy losses sustained by the drought of last year."

"I expect to leave tomorrow for the Gallinas mountains, where I will make some investigation of mining claims that have been staked out there. I will return to the city in a few days, and it is very likely that I will then make an extensive trip through Taos and Rio Arriba counties, in the northern part of the territory."

"Upon my return to Albuquerque today I found a letter awaiting me from Dr. Day, chief of the division of mining and minerals, with headquarters at Washington, D. C., asking if I would visit the northern part of the territory and make an investigation of the supposed platinum beds that are supposed to exist in that section. I have not decided exactly what I will do, but it is very likely that I will make the investigation for Mr. Day."

Prof. Jones is known as an Indian, but looks as if the trip agreed with him.

ANOTHER MEAT MARKET FOR ALBUQUERQUE

JOHN W. ABBOTT, FORMER MANAGER OF THE SAN JOSE, OPENS A FINE ESTABLISHMENT.

John W. Abbott, formerly manager of the San Jose market, has gone into the business for himself, and has just opened up one of the finest meat markets in the southwest, at 121 North Second street. The fixtures are very handsome and the refrigerator department cannot be excelled. He will handle the best fresh meats obtainable, and any one wishing anything in that line will do well to give Mr. Abbott's market a trial, as he will be prepared to give them almost anything in the way of fresh meats and fish. He is also prepared to wait on his customers promptly.

Mr. Abbott has had years of experience in the meat business and it is safe to predict that he will enjoy a big trade.

NEW COURT HOUSE FOR MCKINLEY COUNTY

WILL BE PATTERNED AFTER EDIFICE AT PORTALES, AND WILL PROBABLY BE BUILT OF STONE.

Gallup, McKinley county, is to have a new court house. The first active steps were taken in that direction at the meeting of the board of county commissioners of that county this week. According to the plans submitted to the commissioners, the structure is to be a handsome building, 60x86 feet. It is to be patterned after the court house at Portales, Roosevelt county, but will be larger. It has not been decided if just what material the new edifice is to be constructed of. It is altogether likely that the entire building will be built of stone, although the commissioners are looking into the hollow blocks, manufactured of cement, which have come into general use lately.
